

**WHAT DO A WILDLIFE REFUGE AND THE  
FEDERAL BUDGET HAVE IN COMMON?  
NEITHER SHOULD CONTAIN ARCTIC DRILLING.**

**Representative Nussle,  
please keep Arctic drilling out of the Federal Budget.**

The majority of Americans want to keep the Arctic Refuge free of drilling rigs. And nearly everyone in Congress believes that the federal budget is no place for Arctic National Wildlife Refuge drilling either. Yet supporters of drilling the Arctic are attempting to slip a highly controversial drilling scheme into the budget, where it threatens to derail the entire process, and divert attention from real energy solutions like homegrown ethanol. **Please call (202) 225-2911** and urge Iowa Representative Jim Nussle to keep drilling out of the federal budget. And help stop things from getting really ugly.
